Enabling Sustainable Design Through Building Information Modeling

Wednesday, March 21, 2012; 3:00-5:00 pm

AIA Connecticut, 370 James Street, 4th Floor, New Haven, CT

Sponsored by the AIA Connecticut the Committee on the Environment

2 hours AIA Continuing Education, HSW and Sustainable Design (SD)

Are you wondering how and what aspects of Building Information Modeling (BIM) are related to the requirements and strategies pertaining to sustainability? You won't want to miss this presentation by Phil Bernstein, FAIA! Phil will discuss how digital technology accommodates and empowers sustainable design, explaining how digital tools enable designers to achieve sustainable results through:

- Modeling
- Analysis
- Simulation
- Visualization
- Construction management optimization.

Phil is a Vice President at Autodesk where he is responsible for the company's future vision and strategy for technology serving the building industry. Formerly a principal with Pelli Clarke Pelli Architects, he teaches Professional Practice at the Yale University, where he received both his B.A. and his M.Arch. He is co-editor of *Building (In) The Future: Recasting Labor in Architecture* (2010) and *BIM in Academia* (2011). He is a Senior Fellow of the Design Futures Council and former Chair of the AIA National Contract Documents Committee.

Directions to AIA Connecticut, 370 James Street, Suite 402, New Haven:
From I-95 Northbound: Merge onto I-91 North, via exit 48. Take Exit 5, State Street. At light, turn Right onto James Street. 370 James is on your right, immediately after the next light. From I-95 Southbound: Merge onto I-91 North, via exit 48. Take Exit 5, State Street. At light, turn Right onto James Street. 370 James is on your right, immediately after the next light. From I-91 Southbound: Take Exit 6, Willow Street. Turn Left on Willow Street. At traffic light, turn Right onto State Street. At next light, turn Left onto James Street. 370 James is on your right. There is ample parking behind the building. After the intersection of State and James, go to the second traffic light and turn right at the intersection. The parking lot is just beyond the building. Do not use the parking lot on James Street before the building.
