

2009 COMMITTEE SIGN UP

COMMITTEE MEMBERSHIP MUST BE RENEWED ANNUALLY.

All active committee members need to return this form to be on this year's list.

All committee communication and meeting updates are by email.

You may view the AIA Connecticut website, www.aiact.org, for meeting dates or the calendar in the AIA Connecticut News.

Check the box for each committee of interest

CES credits are given for meetings with speakers

3D Roundtable

The roundtable focuses on 3D modeling; 3D Software and architecture; 3D software as a design tool; and the value of 3D in the marketplace.

Building Performance & Regulations (BP&R)

This committee focuses on code related issues as well as the performance of building materials for systems. It plans programs on Connecticut codes, ADA requirements and building regulations. It works with the Government Affairs Committee by evaluating the effect of legislative initiatives on codes and with the Education Committee by reviewing the use of materials in buildings. The committee has led outreach to other industry organizations and to the public at large.

Committee on the Environment (COTE)

This committee promotes the chapter's involvement in sustainable and energy-related issues and educates its architect members in environmental matters.

Design

The Design Committee sponsors the annual Design Awards Program, the bi-annual Emerging Architecture Firm Award, the Alice Washburn Award Program, the Business Architecture Award, and the Public Service Award in addition to planning lectures and tours of buildings of note.

Education

This Committee sponsors professional development programs to aid AIA members in fulfilling their Continuing Education requirements and to broaden their knowledge of practice, business and technological issues.

Emerging Architectural Community

If you are an intern, Associate, or recently licensed architect, join this committee geared toward "newer" members of the profession. In addition to community activities, such as CANstruction®, leadership opportunities & various social/networking events, the committee sponsors the annual A.R.E. Licensing Exam Review course, which reviews the substance of the architectural licensing exam.

Government Affairs

Join us to encourage AIA Connecticut's participation in local, state & federal government. Choose the aspect of Government Affairs that interests you most.

Historic Resources

The committee sponsors educational programs and tours, provides resources, and generally serves as the "touch point" on historic issues within AIA Connecticut as well as to other organizations.

Professional Practice Roundtable

The roundtable addresses practice issues and shares information between practitioners in a roundtable format. Outside experts often lead the roundtables.

Public Relations

The committee works to sponsor programs and to create awareness and understanding of Connecticut's AIA Architects, resulting in increased opportunities for members.

Small Firms Roundtable

A dynamic roundtable, meeting nine times a year to explore and discuss issues specific to small practices. Speakers are often featured. This is a must for the sole practitioner and micro firm.
