

Quantum Contract Manager

AIA document management software designed specifically for use with original AIA documents.

Put away your typewriters and your calculators!
This program makes filling out the AIA Documents a breeze!

The Quantum Contract Manager program will collect information to easily fill many of the more common forms. The program automates the billing process, doing all the required calculations to complete and print your payment applications. It also makes filling out contracts and printing multiple copies a snap. It is a complete database driven PC application that tracks all this information by project.

Note: This program prints information onto preprinted AIA Contract Documents, which users must purchase from AIA. This program does not generate any original AIA Contract Documents.

All this for only a one-time purchase fee; no other ongoing fees are required. One year of technical support and maintenance updates is included with your purchase.

For a demo, go to <http://www.quantumcm.com/distributors/connecticut>.

For information, contact AIA Connecticut at 203-865-2195 or aiainfo@aiact.org.
