

Lightning Protection 101
Friday, September 10, 2010 12:30 pm
AIA Connecticut, 370 James Street, Suite 402, New Haven, CT 06513

A Lunch and Learning Program

The Lightning Safety Alliance will present a review of proper lightning protection system design and its application to meet UL and NFPA requirements. Learn about the five essential elements of proper lightning protection systems; the standards that such systems should meet; non-conventional methods of lightning protection; and how to specify effective, attractive, low maintenance systems for all types of structures.

1+ CES/HSW hour

Lunch will be served.

Please note that there is NO fee for this program, but we prepare food. Please be sure to sign up for Lunch and Learning **beforehand**. If you must cancel, please let us know in advance. Those who sign up and do not cancel if they cannot attend will be charged \$10. Walk-ins and non-members pay \$15. AIA Connecticut does not endorse any product lines.
